

## **Bellringer 12 – Utopian Society**

Students will discuss the following statements and questions in small groups. Every student will write down his or her ideas in the “Bellringer Section” of the notebook. In 15 minutes we will share as a class.

- Life in the USA would be perfect if everyone were totally equal.
- You are designing a society in which everyone is equal. What are the laws?
- What would you do to help people who were less capable mentally, physically, or socially to “catch up”?
- What problems can you foresee that might arise in a society with enforced “equality for all”? How would you handle those problems?
- Do you believe that total equality is possible, or would human nature assure that some people would eventually dominate others?

**\* REMEMBER TO TITLE AND DATE YOUR BELLRINGER ENTRY**
